Use Internal CSS not External CSS**Question: Create a Personal CV Card Webpage**

- Create an HTML page with embedded CSS that displays a personal CV card for a person named Ahmad. Your webpage should follow the following specifications:
- First, write your **name** and **student ID** at the top inside an HTML comment. Example: `<!-- Name: Student Name | ID: 123456 -->`
- Find the required image on the desktop
- Save your work on the desktop. (**with your ID**: 20202020.html)

HTML Structure Requirements:

1. Create a centered card (`div` with class "div1") containing:
 - A heading (h1) with the text "Ahmad's C.V"
 - A circular profile image (use "manperson.png" as the source with alt text "Ahmad's image")
 - A clickable link to "<https://www.personaCV.com>" that opens in a new tab
 - An email link (mailto:info@example.com) with the subject "Question about me" and link text "Ask a Question about me"
2. Below the card, add:
 - A centered paragraph with text "Check My Capabilities"
 - Two button-styled elements displaying "Education" and "Hobbies"
 - A heading (h3) "My Certificates"
 - An ordered list with the following certificates:
 - Java Certificate (with nested unordered list items: Python, C#)
 - HTML & CSS
 - Oracle

CSS Styling Requirements:

1. **Body**: Light gray background (`#f4f4f4`) with 20px padding
2. **Paragraphs**: 500px width
3. **Button class**: 75px width, 5px border radius, blue background (`#3498db`), white text, padding 12px 30px, inline-block display, margin
4. **Card (div1 class)**: 8px border radius, centered text, 500px width, 400px height, 4px 8px box shadow, 1px solid black border, a background
5. **Image**: 150px × 150px, circular (50% border radius), 5px white border, 20px bottom margin

Note: Pay attention to proper HTML structure and closing tags.
